PriconGold[®] The Premium Edge Blade

Pricon Gold Knives are manufactured using latest Technology to deliver consistently sharp & dimensionally true cutting edge.

Perfect Sharpness : Pricon Gold Blades are manufactured using high quality steel that is hardened and tempered to a uniform tensile strength & toughness. This process produces a structure that can be finished to ensure a consistently sharp, precise cutting edge.

Perfect Design : Pricon Gold offers unlimited geometric shapes not readily achievable with traditional manufacturing methods. These endless shape geometries are attained with unprecedented thinness and strict tolerances.

Perfect Incision : Perfect combination of sharpness and design delivers a precise and dimensionally true incision, always.
